BIG TOBACCO

A lot goes into making
a cigarette.
A lot of poison.

ARSENIC. ACETONE. CADMIUM. FORMALDEHYDE. BIG T'S POURING THE SAME STUFF THAT GOES IN RAT POISON AND GASOLINE INTO PEOPLE'S LUNGS. CRAZY, RIGHT? AND IF YOU THINK THAT DISGUSTING LITTLE FACT ONLY AFFECTS SMOKERS, YOU'RE WRONG. SECONDHAND SMOKE CONTAINS MORE THAN 4000 CHEMICAL COMPOUNDS, INCLUDING 200 POISONS AND 69 CHEMICALS KNOWN TO CAUSE CANCER. SECRETS AND SLEAZY TACTICS ARE ONE THING. SELLING KILLER PRODUCTS IS SOMETHING ELSE. LET'S STOP THEM DEAD IN THEIR TRACKS.

TAKE UP THE FIGHT AGAINST BIG TOBACCO. FIGHT WITH FACT NOW.
