	Former smoker	0	.0%	8	1.0%	8	.6%
	Total	1364	100.0%	868	100.0%	2232	100.0%

**Note:**

Established smokers have smoked at least 100 cigarettes in their lifetime and smoked on at least 20 of the past 30 days. Experimenters have smoked at least one cigarette, but have not yet smoked 100 or more cigarettes. Nondaily current smokers have smoked 100 or more cigarettes in their lifetime, but do not yet smoke every day or almost every day (smoked on 1-19 of the past 30 days). Former smokers have smoked 100 or more cigarettes in their lifetime, but did not smoke in the past 30 days. For the risk level variable, students who are NOT open to smoking have never tried a cigarette and (1) said they would not try a cigarette soon and would definitely not (2) smoke at any time during the next year or (3) smoke a cigarette if one of their best friends offered it to them. Students who answered

Experimenters have smoked at least one cigarette, but have not yet smoked 100 or more cigarettes. Nondaily current smokers have smoked 100 or more cigarettes in their lifetime, but do not yet smoke every day or almost every day (smoked on 1-19 of the past 30 days). Former smokers have smoked 100 or more cigarettes in their lifetime, but did not smoke in the past 30 days. For the risk level variable, students who are NOT open to smoking have never tried a cigarette and (1) said they would not try a cigarette soon and would definitely not (2) smoke at any time during the next year or (3) smoke a cigarette if one of their best friends offered it to them. Students who answered 'yes' or 'probably yes' or 'probably no' to any of these 3 questions are considered open to smoking.
