1. I'm interested in getting your perspective about the role the 24/7 Tobacco Free policy plays in communicating the message that tobacco use is not the norm. What can you tell me about how the policy has affected your school?  
What changes, if any, have you observed?
2. What kind of feedback have you received about the policy?  
What about complaints?  
What about supportive comments?
3. In general, how would you describe compliance with the policy?  
Have you observed or heard of any policy violations?  
How about compliance among students?  
How about compliance among staff?  
How about compliance among visitors or contractors?  
What about at football games or other outdoor athletic events?
4. What are some ways that our coalition can help support the 24/7 Tobacco Free Policy?  
Is additional Tobacco Free signage needed?  
How about help letting the public know about the policy?
5. Does your school keep statistics on the number of policy violations? If so, would you be willing to share with us the number of policy violations and what happened as a result of the violations? We'd also be interested in knowing what proportion of violations is by students, staff, and visitors.
